

ONSITE SEWAGE DISPOSAL SYSTEM CONSTRUCTION REPORT

Benton-Franklin Health District
800 W. Canal Drive
Kennewick, WA 99336
509-582-7761

In accordance with the provisions of Benton-Franklin District Board of Health Rules and Regulations No. 2, the Health Officer directs the person responsible for the final construction inspection to:

1. Assure the OSS meets the approved design.
2. Submit a complete and detailed, "as-built" or "record drawing" to both the Health Officer and the OSS owner that include measurements to existing site features enabling the first compartment manhole to be easily located, and a dimensioned reserve area
3. Submit a detailed site specific operation and maintenance manual for the system as installed in accordance with the guidance documents for the design and operation of all alternative type sewage systems, to both the Health Officer and the OSS owner.
